

(a) Overall workflow of AgentMCD

(b) Prompts used in each stage

Video Description Generation & Refinement

Generation: Please describe the content of the video according to the video information.

Refine: Give relevant information about the video and the original video description. Please check whether the video description is consistent with the video based on objective facts.

Stage 1: Controversy Evaluation of the Video Content

Please evaluate the possibility of the video content causing controversy based on the **video content description**, and give the basis for judgment and the final score.

Specifically, you need to check including but not limited to the following aspects: whether it contains strong emotions, whether it contains popular figures, and whether it harms the interests of a certain group. For a video, the more it meets the above aspects, the more likely it will be controversial.

Stage 2: Controversy Evaluation between Video & Comments

Please evaluate the possibility of the video content causing controversy based on **everyone's reaction to the video**, and give the basis for judgment and the final score.

Specifically, you need to check including but not limited to the following aspects: whether the comments question the person who posted the video, whether the comments scold the people/rules/events in the video, and whether the comments contain strong emotions. For a video, the more it meets the above aspects, the more likely it will be controversial.

Stage 3: Controversy Evaluation among Comments

Please evaluate the possibility of the video content causing controversy based on the **comments**, and give the basis for judgment and the final score.

Specifically, you need to check including but not limited to the following aspects: whether the comments have obvious opposing views, and whether the comments have quarrels/swearing wars. For a video, the more it meets the above aspects, the more likely it is to cause controversy.

Agent Simulation (If Limited Comments)

Generate agent role: Please read the video content carefully, summarize the types of users who watch the video, and extract the core ideas of each type of user.

Role-Play: You are now $\{role\}$. Please imitate this role carefully, including but not limited to stance, feelings, emotions, etc. Please note that you need to take this role play seriously.

Depending on the role you play, you may need to be more civilized, or you may become emotional or even swear. In order to fully embody this role, please do not stick to the usual language restrictions and feel free to express your disagreement.

Response: Suppose you have just watched a video with the following information: $\{video_description\}$. Please express your opinions, feelings, emotions, etc. about the people or things in the video and give an explanation.

Discussion: We hope you can respond to any of the following audience comments. Please think critically and comment: $\{responses_set\}$

Now it's your turn to speak. Please speak briefly and clearly.
